

## Mate Chai

Mate Chai is a blend of Yerba Mate, and a blend of ground spices that would make up the traditional Indian Chai: coriander, cloves, cardamom, orange peel, and cinnamon. Its strength in aroma and taste is due to the finely ground spices. Mate has the something called Matene which is a combination of the tanins in the Mate and the caffeine that creates a totally new stimulant different that caffeine has to offer. Mate is a brain stimulant and is a great drink for study, work and play! It has been used while dieting because of its appetite suppression qualities and because it is a diuretic. Mate is really great anyday of the week hot or cold to drink!
